23) All laws on subjects allotted to this Division.
24) Inquiries and statistics on any of the subjects allotted to this Division.
25) Fees in respect of any of the subjects allotted to this Division except fees taken in courts.

In sum, the major jobs of ERD are assessment, mobilization and allocation of external assistance. These call for involvement in planning, budgeting, strengthening foreign relations and monitoring of development activities. Planning Commission determines the investment levels and priority of projects and programmes. ERD assesses the needs of foreign assistance on that basis and naturally influences planning. Implementation Monitoring and Evaluation Division (IMED) monitors implementation of the projects under Annual Development Programmes and does performance auditing for development programmes; ERD retains an interest in aid utilization and thus gets involved in monitoring development works. Budgeting is done by Finance Division and Planning Commission, but like Internal Resources Division, ERD gets involved as it mobilises external resources for the budget. Ministry of Foreign Affairs conducts foreign relations but ERD plays coordination role between Development Partners and executing agencies as the external resources
conduit through ERD. ERD also prepares and executes external economic policy, maintains relations with international development agencies and arranges/participates in the development forum meetings. Responsibility of management of external debt, control of flow of funds, administration of technical assistance programmes of Bangladesh, resident Development Partner missions and some of the economic missions abroad.

In discharging responsibilities, ERD has to coordinate very closely and keep special relation with Planning Commission, Finance Division and Ministry of Foreign Affairs, Ministry of Commerce, Ministry of Food and Disaster Management and Bangladesh Bank too. ERD functions as a service organization for all executing ministries/divisions and agencies. Therefore, the basic principle of its operating efficiency is its ability to carry others along with it. The nature of its responsibilities imposes certain specific burden. First, the delivery of service has to be prompt. Second, the concern for coordination and concerting of views must govern its activities. Third, because of dealings with foreign agencies, a high level of efficiency and courtesy is warranted. Fourth, an intellectual bias and international outlook is expected.
